Welcome to My Happy Place Center! We are excited for the opportunity to get to know your loved one and give them the opportunity to get to know us and meet new friends.

Our purpose is to create a safe and structured environment for adults with different abilities; to practice social skills, learn life skills, have mental stimulation, and discover new activities and interests.

Our mission is to provide respite care to care givers of adults with different needs. We want caregivers to feel comfortable allowing the individual to attend the center while the caregiver attends to other things.

We will create a culture of inclusiveness and belonging, provide a variety of activities to engage in, and have trained, caring staff to ensure safety and enhance the individual's daily life.

Attached you will find a copy of our Enrollment Requirements and Application Form – these are designed to ensure that My Happy Place Center is the right fit for your family's needs.

Please read through and fill out each section thoroughly, and do not hesitate to ask any questions!
